

Loki Usability Test – Part 1

Welcome to this test, we are grateful for your time!

In this test you will try out an electronic voting system that is designed to be coercion resistant.

The test is divided into two parts. You will now complete the first part and then leave and come back to complete the second part.

The overall test process will be as follows:

Part 1 (5-10 min):

1. Read the tasks below one by one and do what is described.
2. If there is a task that you cannot complete, mark it with the provided highlighter pen.

Leave for some amount of time.

Part 2 (10-15 min):

1. Read the tasks one by one and do what is described.
2. When you have completed all of the tasks, we ask you to fill out the provided questionnaires.

Thank you again for participating!

Tasks - part 1:

1. Log in with the username provided:
 - Username: voter#id
 - Password: pass#id
2. Cast a vote for a candidate of your choice. Note down who you voted for.
3. Stock up on free coffee and snacks!
